

## WHEN PRECISION MATTERS...

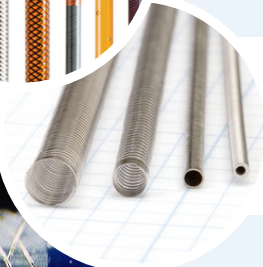

*We represent the highest quality suppliers to the upper midwest's medical device manufacturers.*

*Our goal is to provide the highest quality products for the critical devices our clients create and manufacture.*

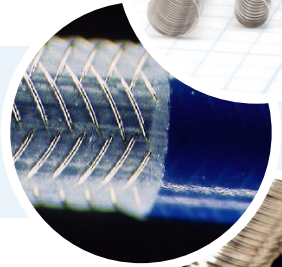

- High Performance Polyimide Tubing
- Complex Catheter Assembly
- Braid and Coil Reinforcement

- Fluoropolymer-Lined Tubing
- Microcut Length Tolerances of +/- .005"
- Wall Thickness Down to .0005"

- Catheter Reinforcement Coils
- Micro Compression Springs
- CRM/Neurostim Contact Springs

- Precision Wire Forms
- Nitinol Wire Forms
- Laser-Welded Wire Assemblies

- Excimer and Yag Laser Capabilities
- Laser Micro-Milling and Turning
- Micro Hole Drilling

- Laser-Welding
- Quick-Turn Prototyping
- Polymer and Thin-Wall Metal Ablation

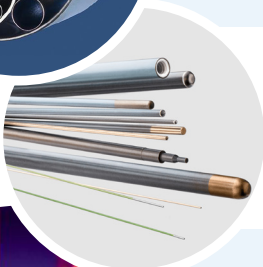

- 304V Fine and Flat Wire
- Gold-Plated Radiopaque Wire
- Silver-Plated Copper Mandrels

- Nitinol Fine and Flat Wire
- Flat Wire Widths Down to 0.0002"
- Flat Wire Gauges Down to 0.0003"

- Seamless and Welded-Redrawn Metal Tubing
- Unparalleled Concentricity
- Superior ID and OD Surface Finish

- Coronary and Peripheral Stent Tubing
- Gun-Drilled Hollows
- Implant Grade Materials

- Lubricity far superior to other options on the market
- Best release properties in the industry
- Precision coating processes provide tight OD control

- Extremely durable coatings coupled with high-temperature resistance
- Proprietary PTFE Natural® formulation outlasts all others
- Ability to provide highly customizable solutions

- Light Curing Medical Adhesives
- Secondary Cure Mechanisms
- Tackfree Cures

- LED Spot and Flood Curing Systems
- Radiometers for Process Monitoring
- Cationic Epoxies

- Specialists in LED Light Sources
- LEDs available in 365, 385, 395 and 405nm
- PLC Interfaces for Easy Integration Into Automated Cells

- Multiple Users/Stations Can Utilize One Curing System
- Many Footprints Available (Spot, Flood, Light Lines, etc.)
- Industry Leading Reliability/Repeatability
