

We Deliver Precision®

NEW

Flat and Round Wire Stocking Program

At Ulbrich, we understand medical device development timelines continue to be reduced. The need for device designers to iterate quickly is accelerating and rarely supported by the supply chain. We understand these needs! To better serve our customers ever increasing requirements, we have developed our new fine wire stocking program. We provide you the ability to obtain a variety of round and flat wire...quickly! This program can have wire in your hands in 72 hours or less. Your project teams are now able to meet their timelines while incorporating all the design performance characteristics your devices require. Call us today to find out more!

Material:

- Stainless Steel 304V

Packaging Information:

- Wound on 30mm Steeger bobbins
- 5,000 feet per bobbin
- 32 bobbins per box
